Save Wellesbourne Allotments from Development

Petition to Stratford-upon-Avon District Council

We, the undersigned, object to any proposed development on the site known as Wellesbourne Allotments. We call upon Stratford-upon-Avon District Council to :

1) Reject any proposed plans to redevelop the site
2) Support Wellesbourne Allotment Association in securing the site and preserving its use as allotments perpetually

Wellesbourne Allotments are over 176 years old, amongst the oldest in the country, and provide a well used community site for young and old to enjoy. It is one of few green and open spaces left in the village due to the pressure of housing development. It provides a sanctuary of peace, relaxation and a place for children to learn about growing food.
